SECTION B

Answer ALL questions.

Read the following extract before answering Questions 4, 5 and 6.

Write your answers in the spaces provided.

Mind Candy Ltd produces games and apps for computers and mobile devices. Its most successful game was Moshi Monsters. The game was aimed at young teenagers and was a global hit, with 80 million users in 2012.

© Mind Candy

In 2013, Mind Candy made large losses as sales revenue fell due to the falling popularity of its games. This was blamed on the short product life cycle of Moshi Monsters and increased competition in its market. As a result of these losses, Mind Candy reduced its workforce of software developers.

(Source from: <https://www.petlandia.com/custom-book.html#create>)

Mind Candy now needed to raise £1.2 million of extra finance. It required this finance to pay existing costs and fund the development of new apps such as Petlandia. Mind Candy believes Petlandia will allow it to return to organic growth. The app is free to download and allows players to design a virtual version of their own pet. This virtual pet can go on an adventure within the app. The adventure is then turned into a personalised storybook which can be purchased for £19.99.

## SECTION C

Answer ALL questions.

Read the following extract carefully and then answer Question 7.

Write your answers in the spaces provided.

In August 2017, UK supermarket group *Sainsbury's* decided to cut its costs by £500 million to remain competitive.

One of the changes *Sainsbury's* made was to end its membership of Fairtrade. The Fairtrade scheme gives farmers in countries such as Kenya a higher price for their crops, such as tea. In return, *Sainsbury's* can use the Fairtrade logo on its products. This makes its groceries, such as bananas, more attractive to ethically-minded customers.

© Fairtrade Foundation 2017

*Sainsbury's* has decided to replace Fairtrade with its own scheme called 'Fairly Traded'. Critics of the change believe that it confuses customers. Protests about this change have already been held in London.

© andrew aitchison

*Sainsbury's* also decided to reduce its head office workforce by 1,000. This allowed the company to increase wages for its shop floor employees, including checkout operators and shelf stackers, by 4.4% to £8 per hour. This reduced the wage difference with Aldi, which pays £8.53 per hour. *Sainsbury's* wants to retrain shop floor employees to improve the customer service in its stores.
